OBJECTIVE

- I am a motivated Computer Science graduate with strong experience in software development, backend services, database migration, and web technologies. Currently working as an Apprentice at Standard Chartered, I am eager to apply problem-solving skills and technical expertise to contribute to innovative projects and deliver meaningful impact in the tech industry.

EDUCATION

VIT, Vellore Institute Of Technology, Vellore

B.Tech Computer Science and Engineering - CGPA 8.35

09 2021 – 06 2025

Vellore, Tamil Nadu

Sri Vivekananda Junior College

Intermediate - MPC - Percentage 87.8%

07 2019 – 06 2021

Chittoor, Andhra Pradesh

Ravindra Bharathi School

SSC - CGPA 9.8

07 2018 – 05 2019

Chittoor, Andhra Pradesh

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Operating Systems
- Network Security
- Database Management System (DBMS)
- Artificial Intelligence
- OOPS Concept
- Web Development

PROJECTS

Doctor Appointment System | HTML, CSS, JavaScript, MERN

- Implemented secure user authentication using JWT for token-based login and bcrypt for encrypting sensitive patient and staff passwords.
- Built an interactive and responsive user interface for managing patient records and appointments using React and styled with Bootstrap for a seamless user experience.

Customer Churn Prediction | Python Flask, HTML, CSS, Machine Learning

- Used machine learning techniques including Decision Tree, Naive Bayes, Logistic Regression, KNN, SVM, Random Forest, and XGBoost with highest accuracy of 86.6%.
- Built an interface using HTML, CSS, and Python Flask to create an intuitive dashboard displaying churn forecast results.

WORK EXPERIENCE

Standard Chartered

Apprentice

July 2025 – Present

Chennai, Tamil Nadu

- Worked on the **Crypto as a Service** project, contributing to both client-side and server-side development using **Lit JS** for frontend, **Quarkus** for backend services, and **Oracle SQL** for database operations as part of the **Apex to Service Bench** platform migration. Strong knowledge of the **Service Bench** platform ensured seamless end-to-end functionality, performance, and maintainability across the application.
- Gained solid expertise in **Liquibase** and provided effective database migration strategies, handling database version control, schema changes, and structured migration scripts efficiently while maintaining consistency across environments.
- Collaborated with Product Owners and Business Analysts to gather, clarify, and validate business requirements, translating them into accurate technical implementations aligned with business goals and improved project delivery.

TECHNICAL SKILLS

Languages: Java, C, C++, JavaScript, SQL, HTML, CSS, Python

Developer Tools: VS Code, Figma, GitHub, Docker

Technologies/Frameworks: ReactJS, NodeJS, ExpressJS, MongoDB, Bootstrap, NextJS, Quarkus, Lit JS

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- MERN Ethnus
